

ARCHITEKTI VE ŠKOLE

veřejný prostor a orientace v něm

OČEKÁVÁNÍ

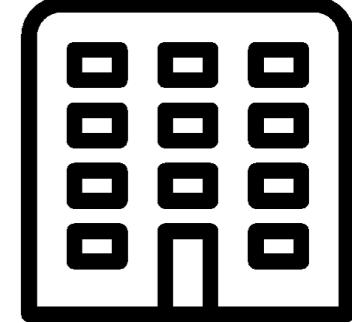

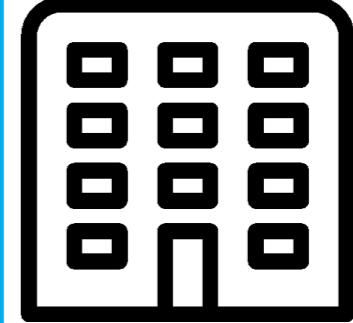

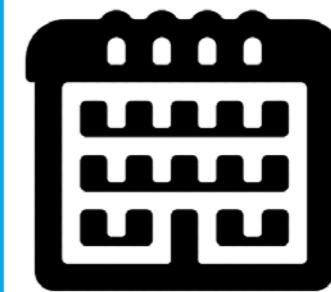

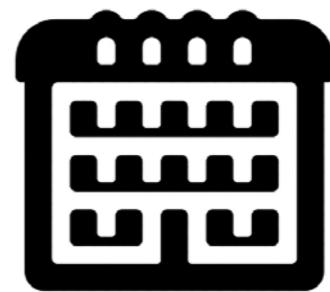

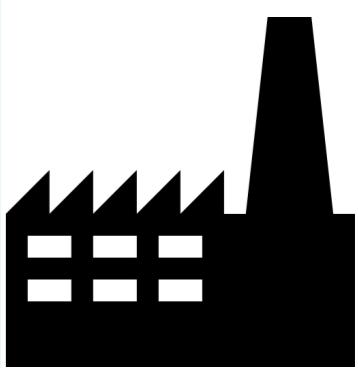

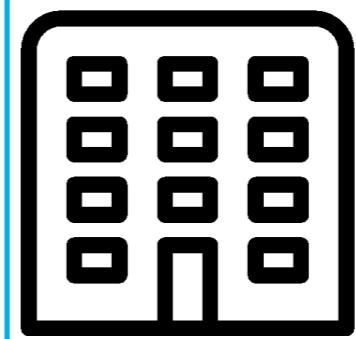

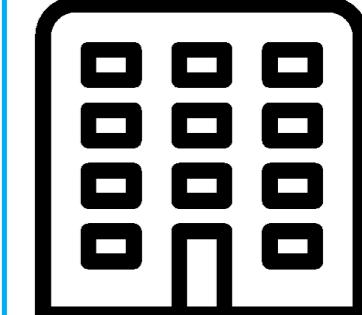

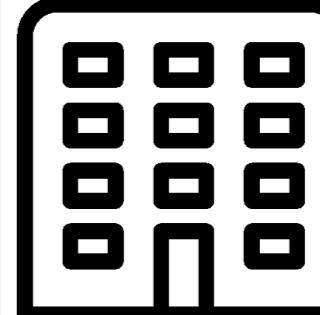

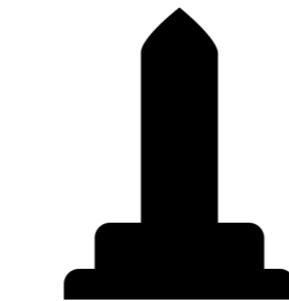

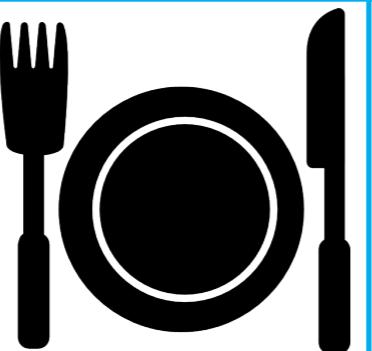

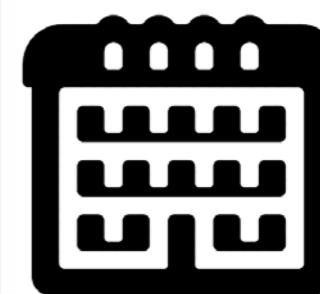

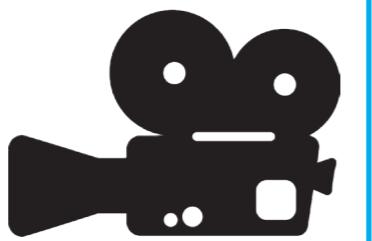

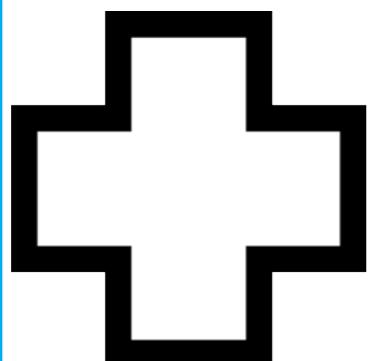

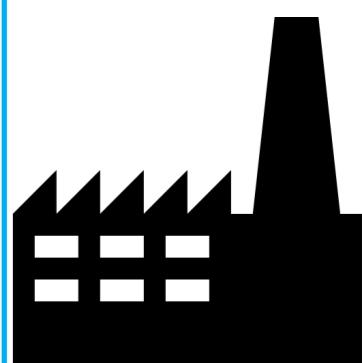

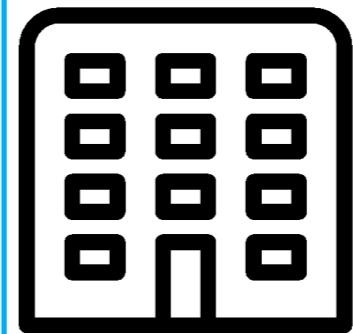

MĚSTO

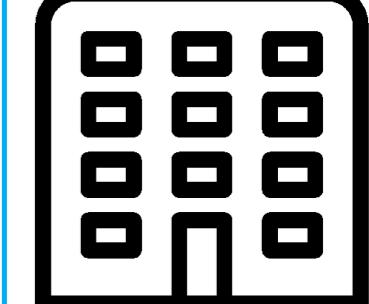

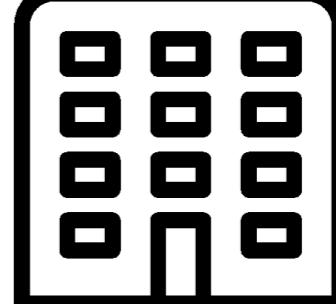

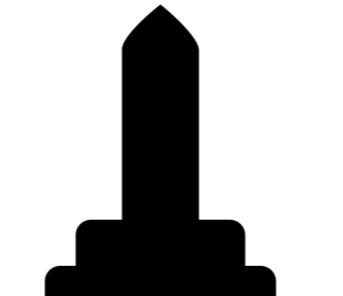

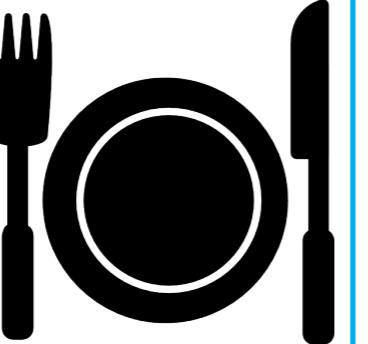

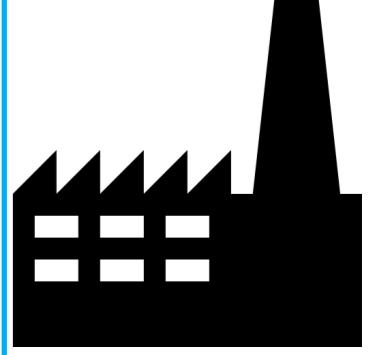

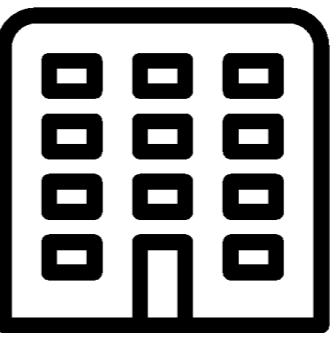

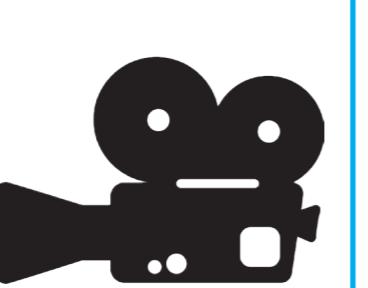

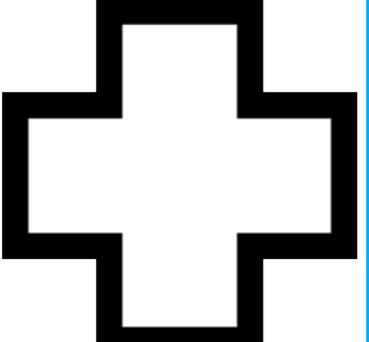

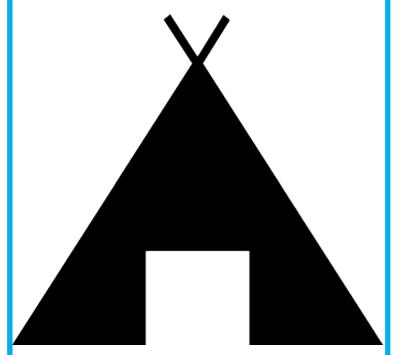

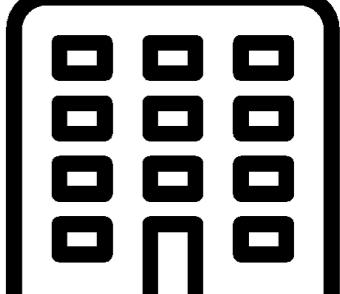

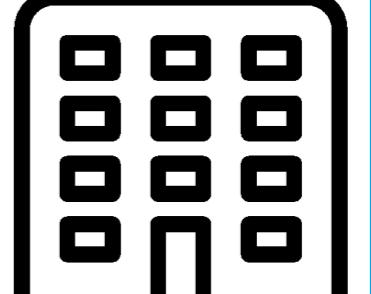

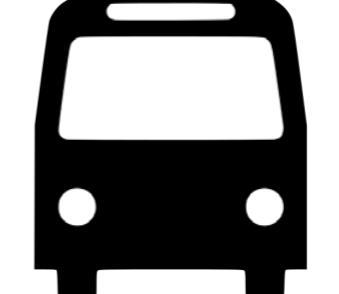

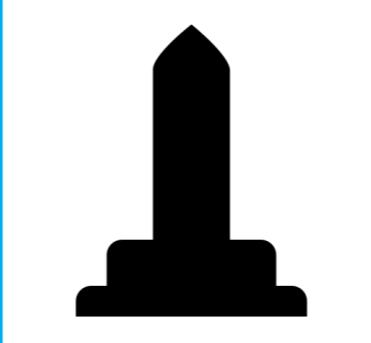

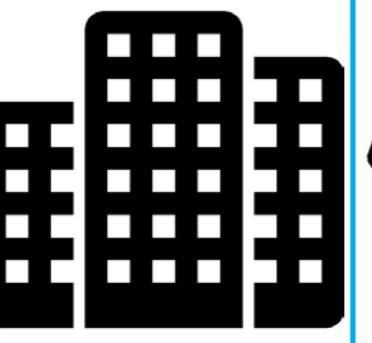

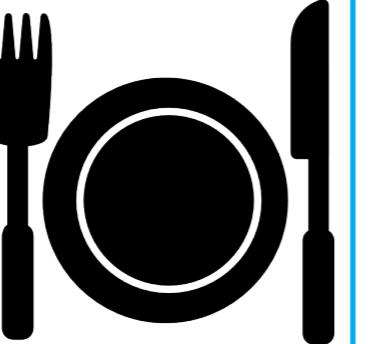

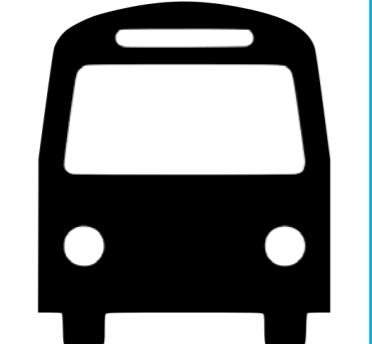

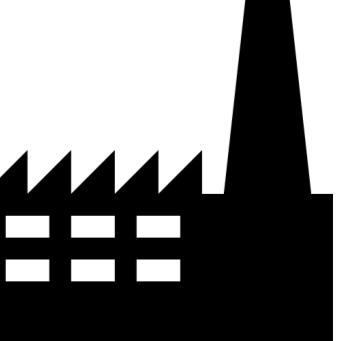

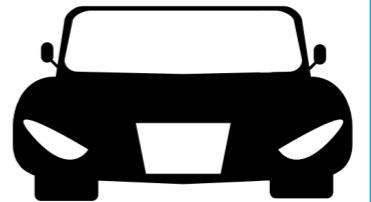

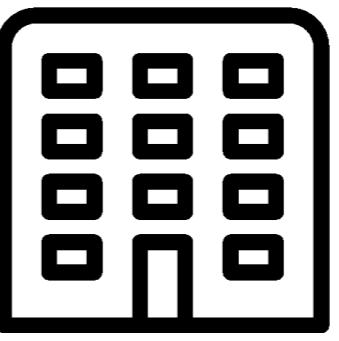

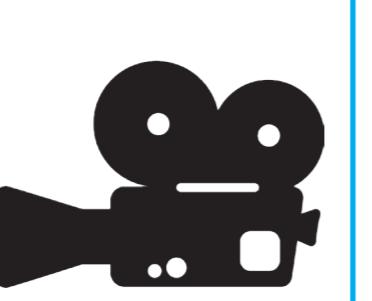

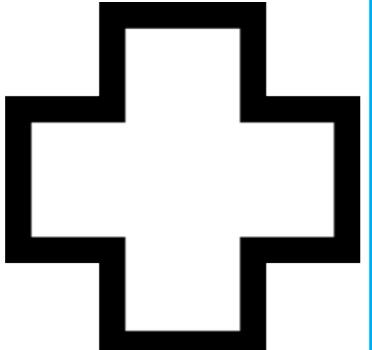

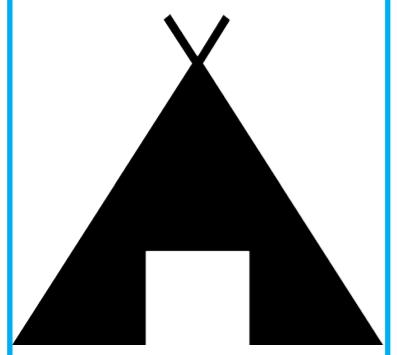

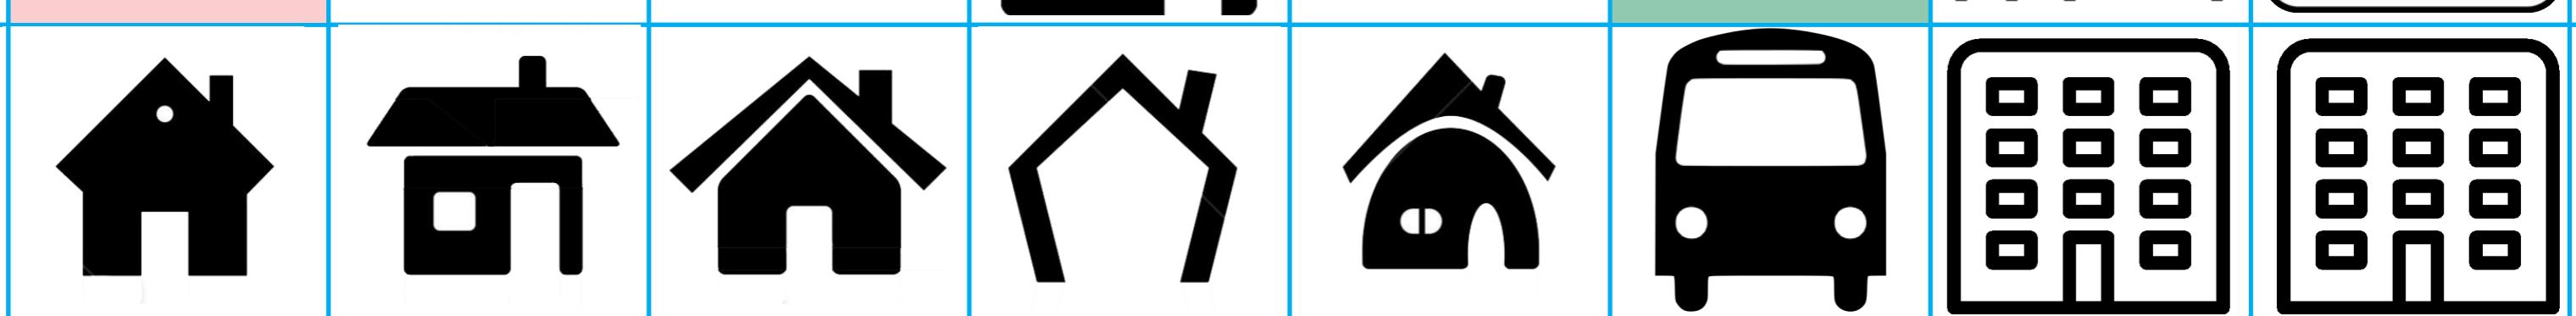

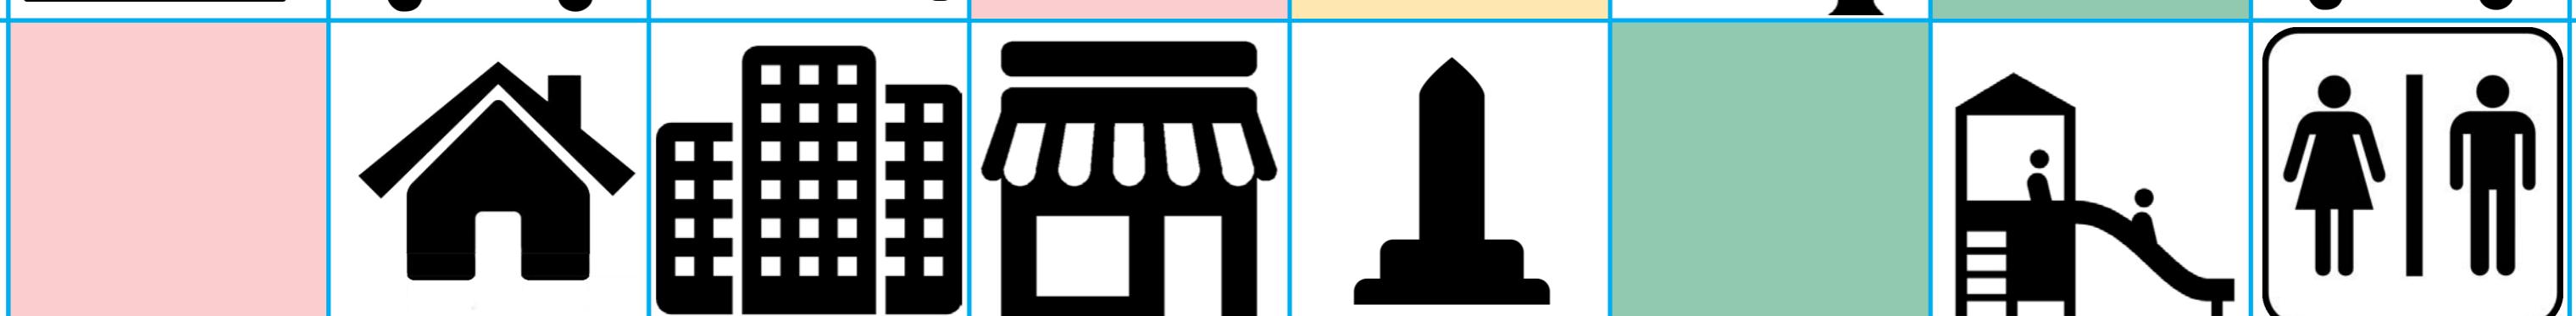

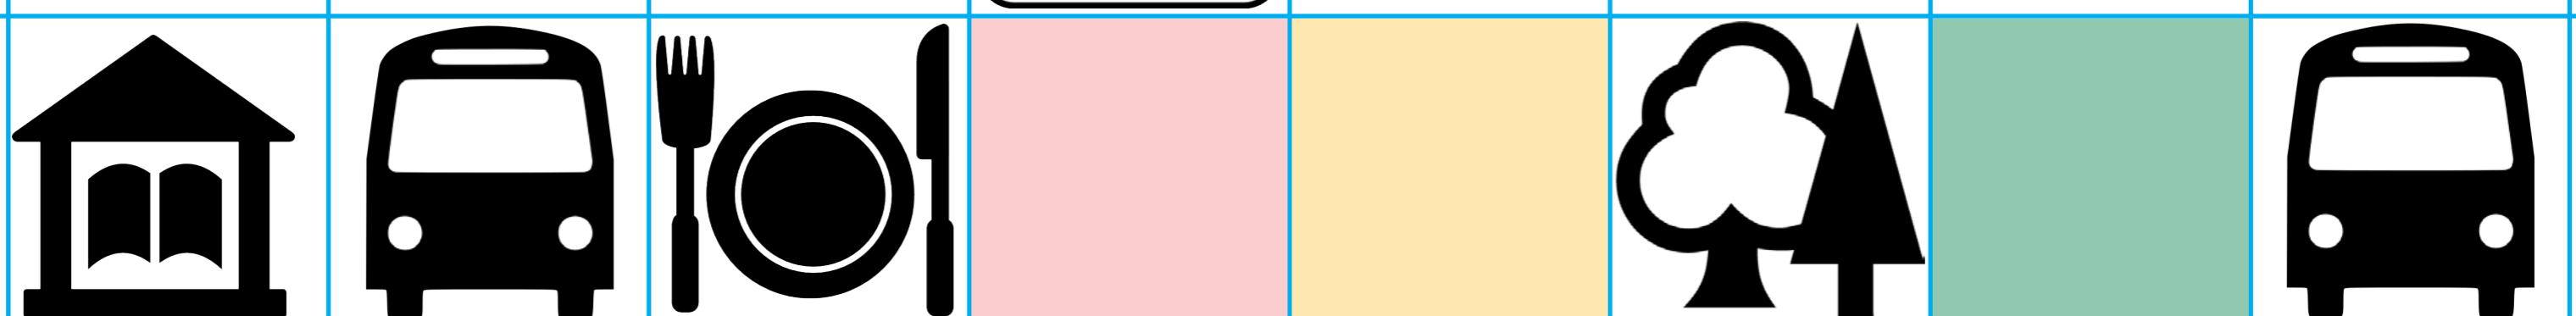

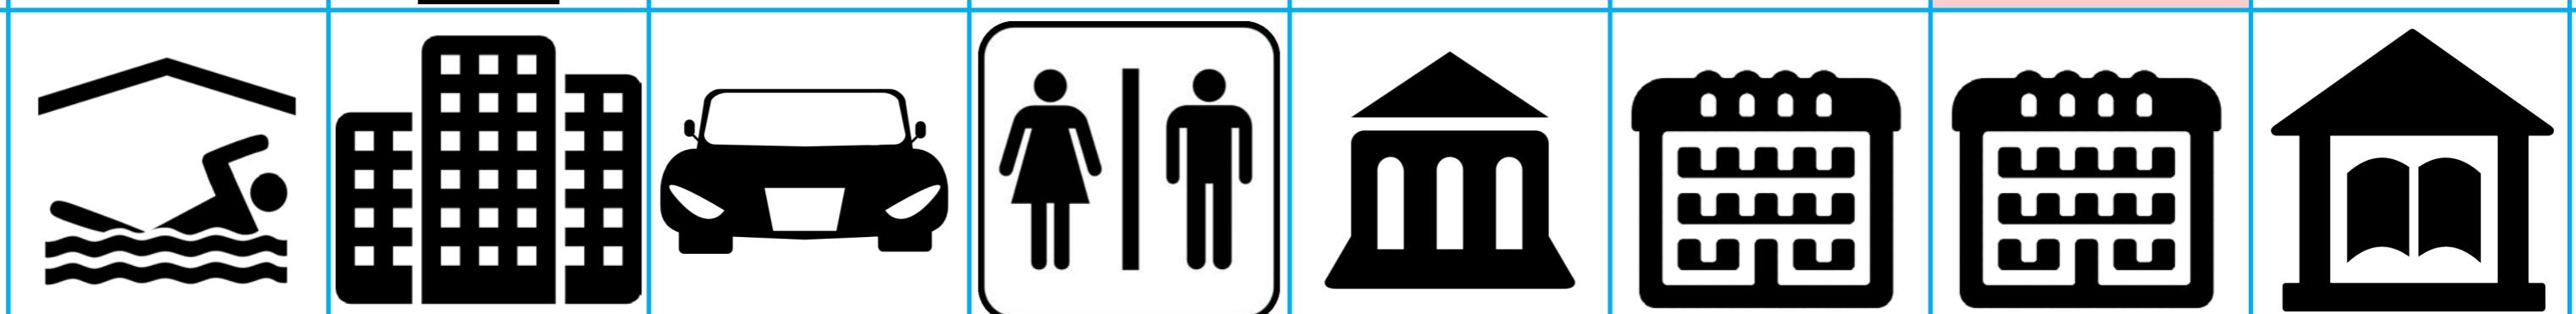

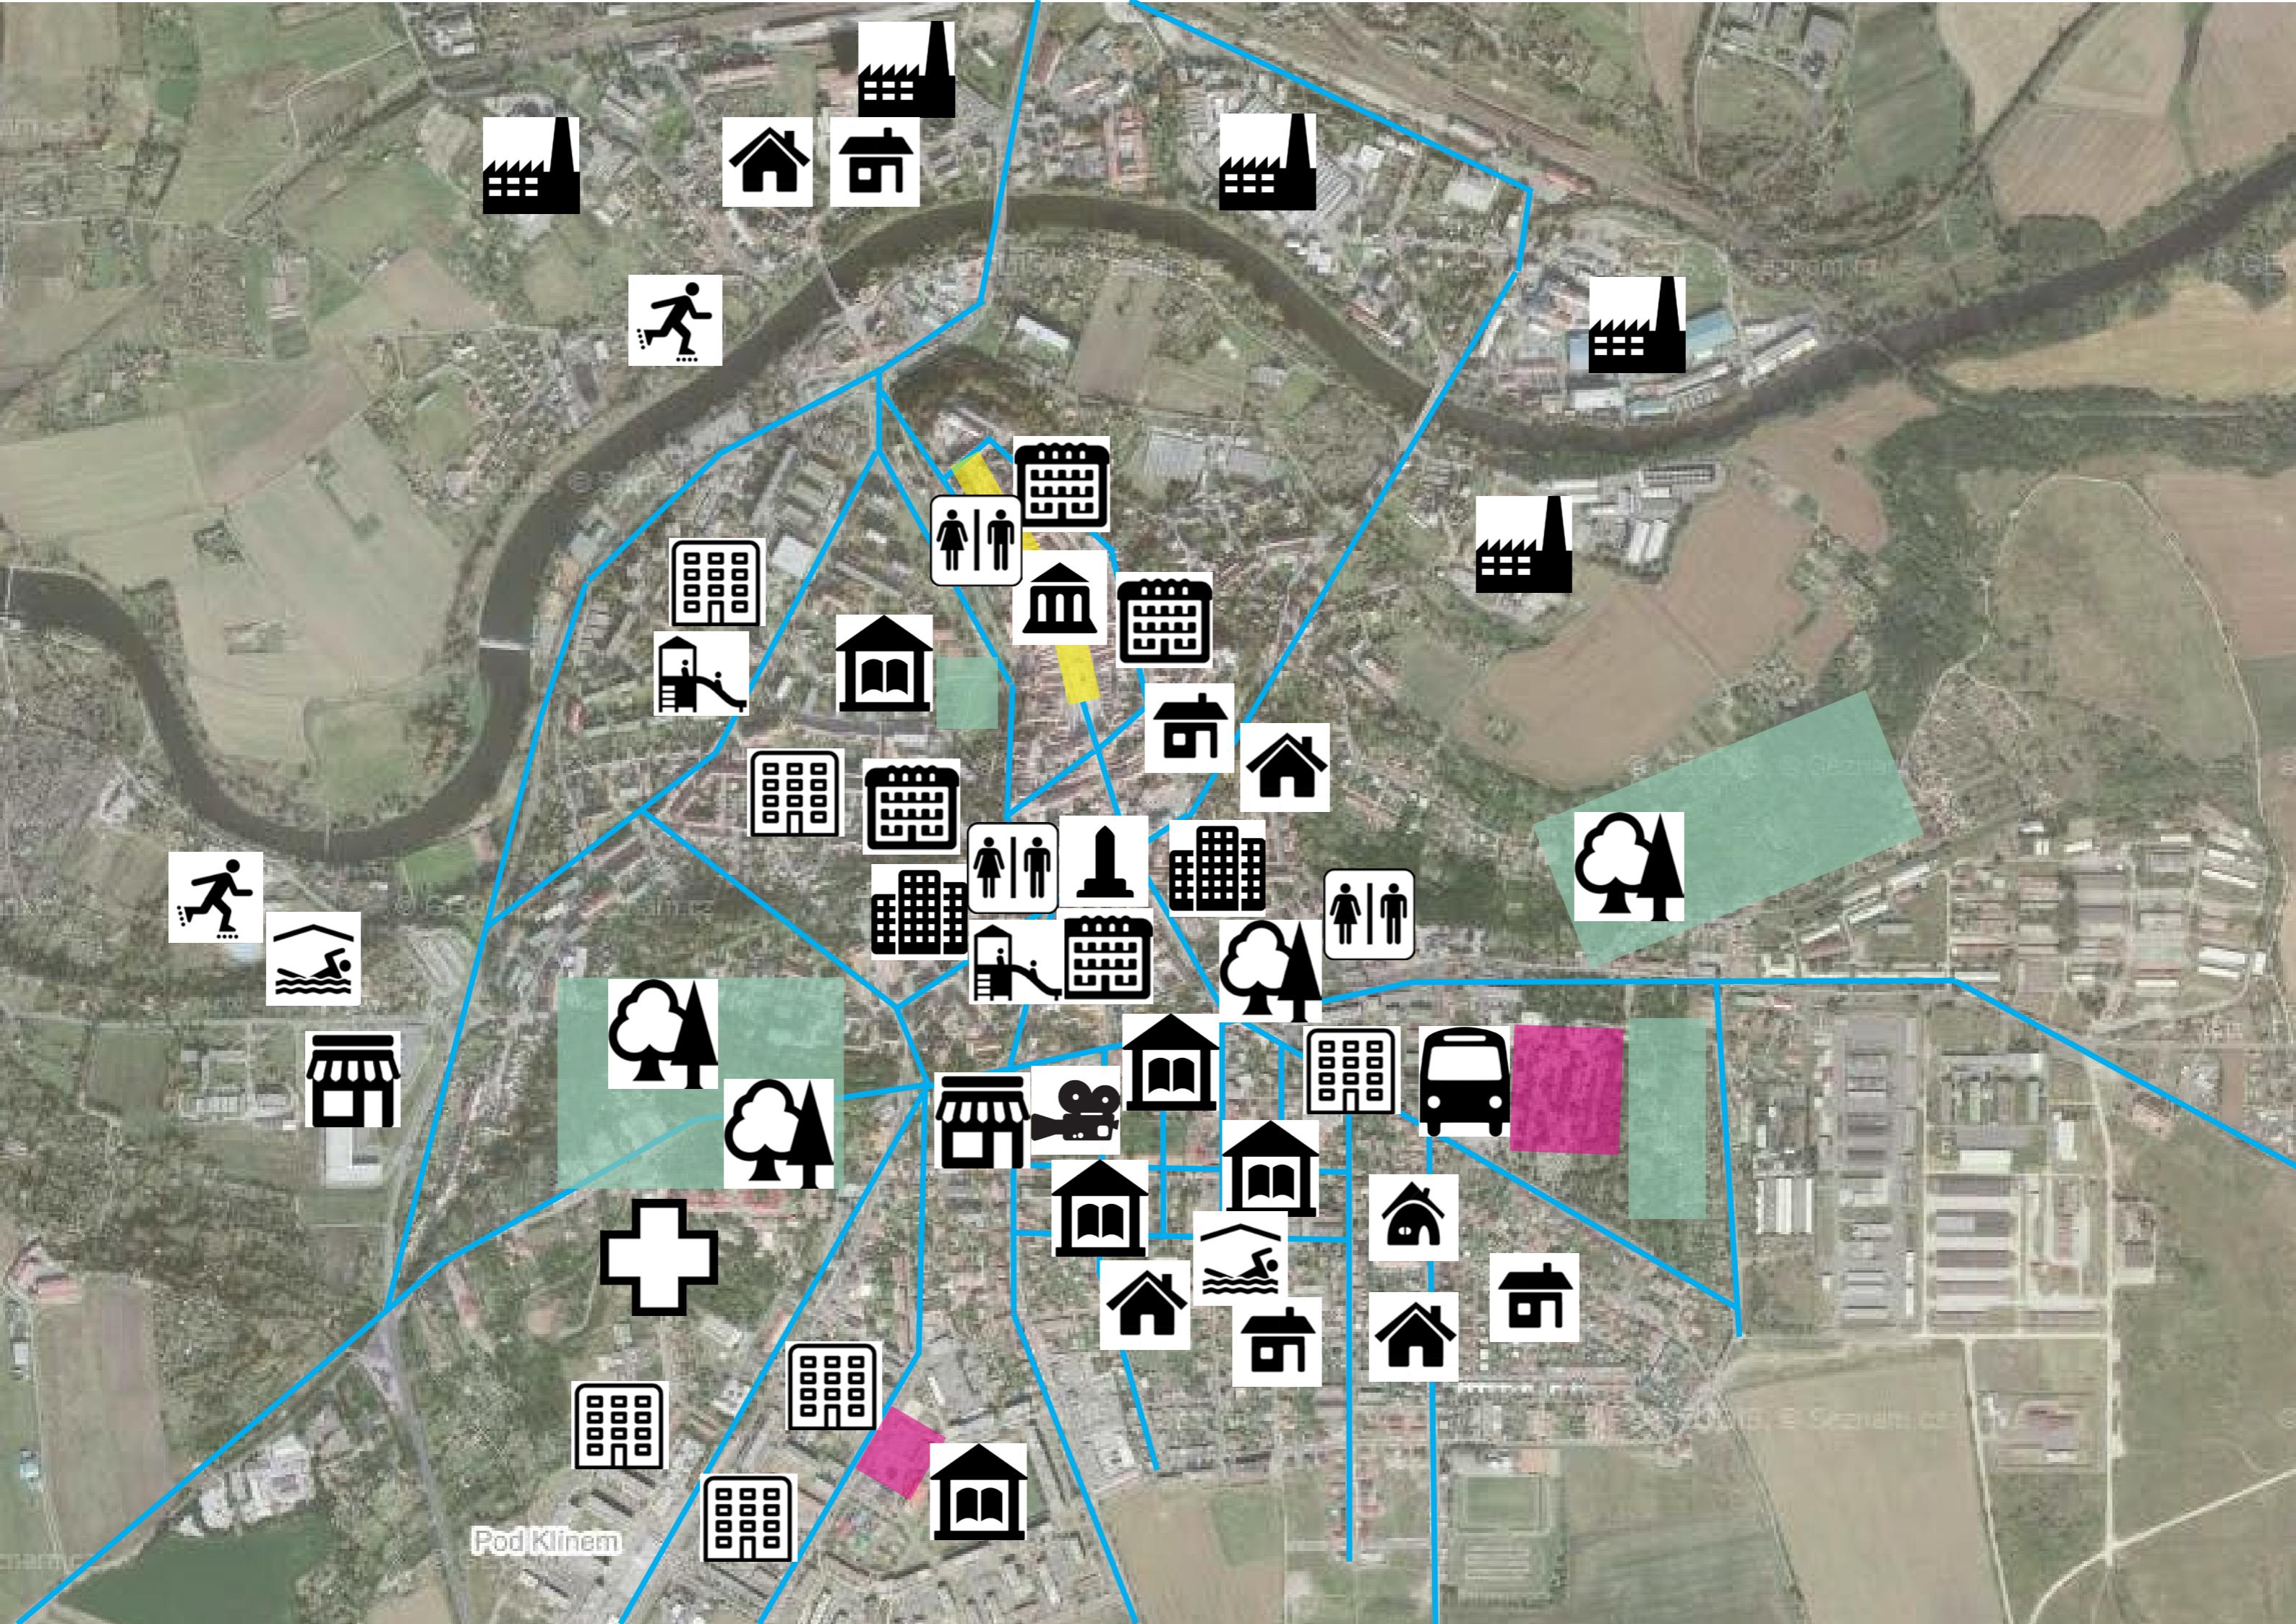

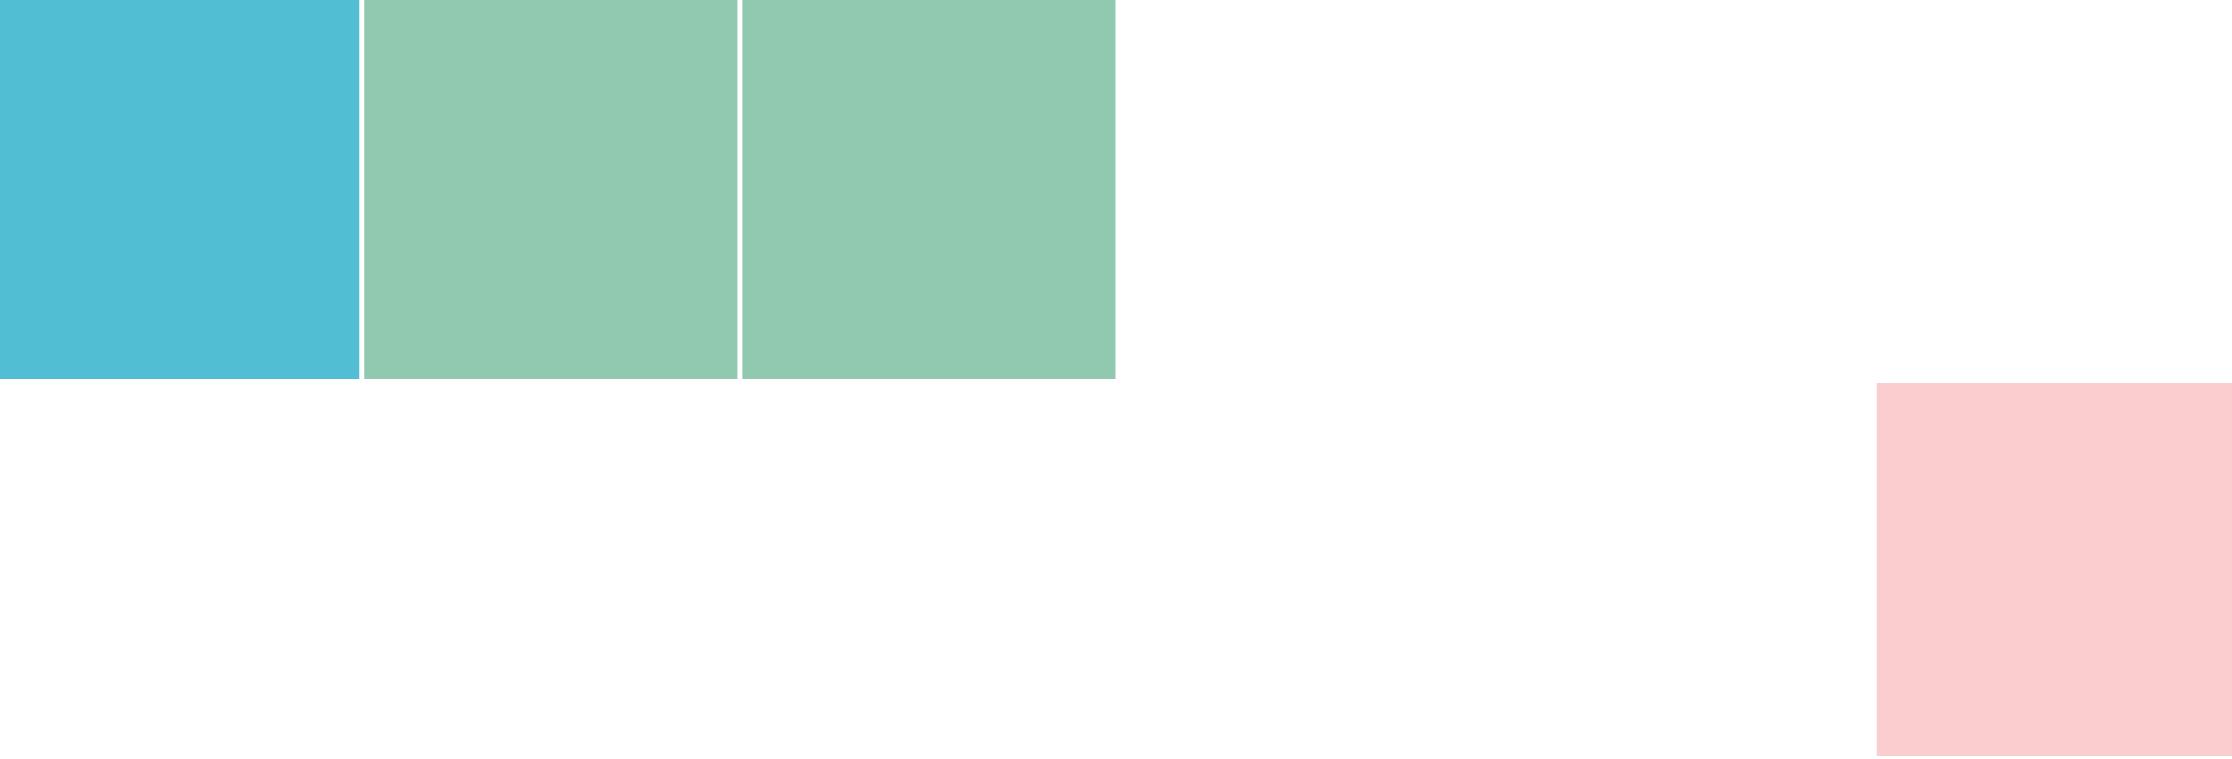

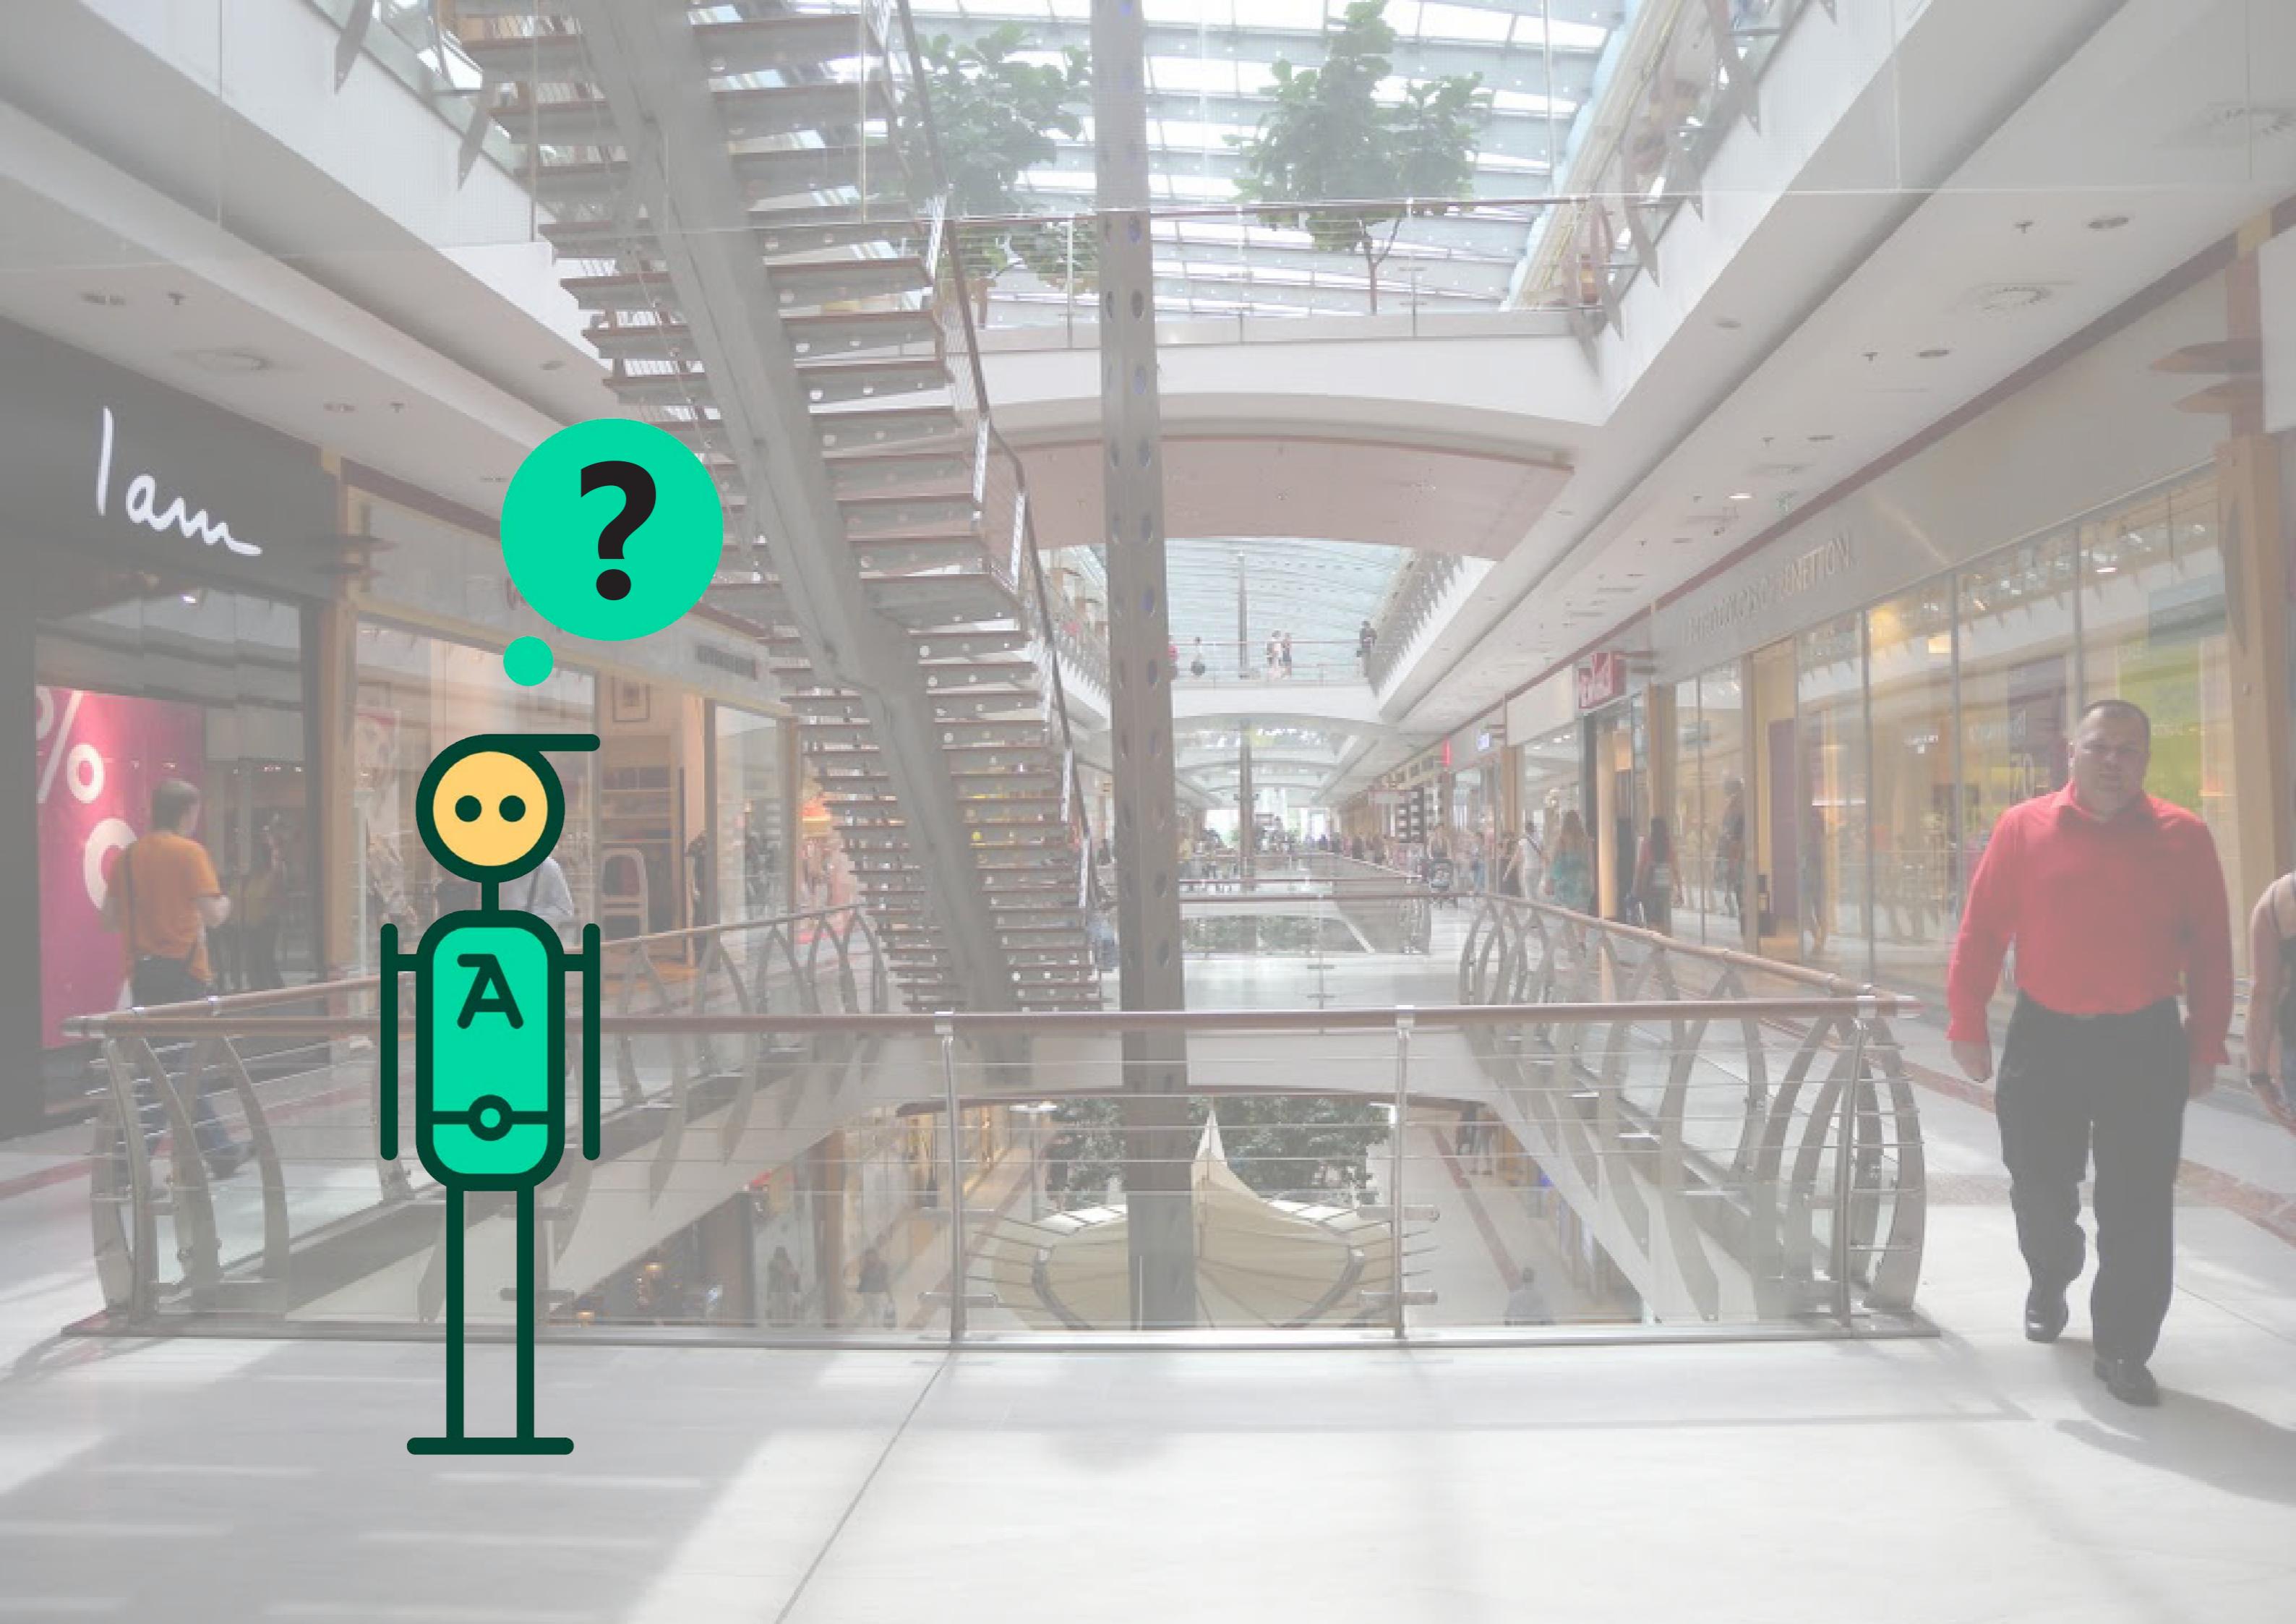

VEŘEJNÝ PROSTOR

...prostor přístupný všem, je to demokratická aréna, kde se mohou scházet a společně trávit čas lidé různých věkových skupin, společenských tříd, pohlaví a ras...

Joanna Erbel

...stále více veřejných zón je totiž nahra-zováno soukromými prostory uzavřených komunit. Působí přátelsky a přitahuje tak zástupy obyvatel města, pro které jsou atraktivnější než jiná místa...

...dodržovat pravidla zde znamená konzumovat – na rozdíl od veřejného prostoru, kde to znamená trávit volný čas nezaujatým způsobem v přítomnosti dalších lidí...

Joanna Erbel

zábavná kniha o měřítkách ve městě

http://issuu.com/czzz/docs/maskovani_kapacit

Na drahých pozemcích v centru jsou výškové budovy. Je to logické

Centrum města je nejnižší. Mrakodrapy jsou zastrčené někde na okrají města. Ulice jsou nízké a do hloubky se navýšují. Každá nová budova, nějak trochu viditelná, vyvolává ostrou kritiku.
